Objective

Hello, I'm a front-end web developer specialized in designing and developing user interfaces and building dynamic websites. I am constantly seeking a web developer position in a stable company, where I can utilize my experience and education to help the company achieve and exceed its goals.

Experience

12/2023 – present **Front-end web developer, React.js**

Wazen

- Front-end web developer on the Wazin platform
An integrated platform that provides smart digital solutions for payments, shipping, and inventory management, to create central online stores for sellers, while building many diverse themes.
Integrated management system.

06/2023 – 11/2023 **Front-end web developer, React.js**

Bit 68

- I was interning as a Front-End Web Developer specializing in React at Bit68 Technology. During my time there, I contributed to various projects, focusing on creating dynamic and user-friendly interfaces.

Freelancing

- Part-time web developer at Way14 for Technical Production.

Education

▪ Ruote Academy Diploma in Information Technology (Front-end Web Development)

The course covers front-end tools: JavaScript, AJAX, JSON, and React.Js. development of a new highly-responsive, web-based user interface. Develop a flexible and well-structured project architecture and the APIs to support it. Translate designs, wireframes, and business requirements into solutions using high-quality codes.

05/2023
